

Gardener's 8 Types of Intelligence (1983/1995)

Theory of multiple Intelligences

Verbal-Linguistic intelligence (WORD SMART) involves sensitivity to spoken and written language, the ability to learn languages and the capacity to use language to accomplish certain goals. This intelligence includes the ability to effectively use language to express oneself rhetorically or poetically.
Possible careers: Writer, poet, speaker, lecturer, lawyer

Logical-mathematical intelligence (LOGIC SMART) consists of the capacity to analyse problems logically, carry out mathematical operations, and investigate issues scientifically. It entails the ability to detect patterns, reason deductively and think logically. *Possible careers: Scientist, mathematician, economist, statistician*

Naturalistic intelligence (NATURE SMART) enables human beings to recognize, categorize and draw upon certain features of the environment. It is combined with a sensitive, ethical and holistic understanding of the world and its complexities including the role of humanity within the ecosphere.
Possible careers: Botanist, ecologist, chef

Intrapersonal intelligence (SELF SMART) entails the capacity to understand oneself, to appreciate one's feelings, fears and motivations. It involves having an effective working model of ourselves, and to be able to use such information to regulate our life. *Possible careers: Philosopher, theologian, psychologist, entrepreneur*

Visual-spatial intelligence (PICTURE SMART) involves the potential to recognize and use the patterns of wide space and more confined areas. It provides the ability or mental skill to solve spatial problems of navigation, visualization of objects from different angles and space, faces/scenes recognition and the ability to notice fine details. *Possible careers: designer, planner, architect, engineer*

Musical intelligence (MUSIC SMART) involves skill in the performance, composition, and appreciation of musical patterns. It encompasses the capacity to recognize and compose musical pitches, tones, and rhythms. *Possible careers: Musician, singer, composer, record/music producer*

Bodily-kinaesthetic intelligence (BODY SMART) entails the potential of using one's whole body or parts of the body to solve problems & use one's mental skills to coordinate bodily movements reflected in an ability to play sport, dance and make things. *Possible Careers: Athlete, dancer, actor, builder, soldier*

Interpersonal intelligence (PEOPLE SMART) involves the capacity to understand the intentions, motivations and desires of other people. It allows people to communicate and work effectively with others. *Possible careers: sales person, counsellor, educator, political leader*
